Rough Stuff from the Pre-war Diaries of Charlie Chadwick (Reprinted with new Cover)

Edited by **David Warner**

This book was originally published in 2012 and has now been reprinted with a new cover as Volume 1 of the Charlie Chadwick series

Charlie Chadwick was an amazing man. Born in Bolton in 1904, he joined the C.T.C. in his late 'teens, and started to record and illustrate his travels. His writing is of a very high standard and his illustrations are in the style of Patterson.

His early years were spent with an elite group of like minded souls, nicknamed the "We are 7", to a man all hard riders. Every ride was an endurance test, especially with the equipment in those times. With his love of the high and lonely places, his knowledge of the byways and remote tracks, and his photography, it is little wonder that he was a founder member of the Rough Stuff Fellowship and indeed their first Chairman. RSF members still compete annually for the Charlie Chadwick Memorial Trophy photographic competition.

Illustrated, with a full index, this book has 176 printed A5 pages and is perfect bound with new attractive cover design.

Further Adventures from the Pre-war Diaries of Charlie Chadwick

Edited by **David Warner**

This second Charlie Chadwick volume takes us much further into his adult life and indeed starts with his best story 'Two – A Tandem and a Tyre'. This relates how in 1929 Charlie persuaded his friend Joe (who owned a tandem) to leave his girlfriend behind and become Charlie's 'stoker' for ten days in the southwest of England. It speaks volumes for Charlie's power of persuasion! Their subsequent adventures read like that old classic comedy book 'Three Men in a Boat'.

To comply with many requests for more drawings of Charlie's, the number of illustrations has been expanded. Anyone who has enjoyed Charlie's earliest efforts (Rough Stuff) cannot fail to be impressed with his collection in this volume - they are outstanding.

Illustrated, with a full index, this book has 178 printed A5 pages and is perfect bound with an attractive laminated cover.
